CSC 435: Web Services
Spring 2023

Place and Time: TR 9:35 a.m. – 10:55 p.m.; T sync online, R in Marano 225

Instructor: Alex Pantaleev

Office: Shineman 441

Office Hours: by appointment

Email: alex@cs.oswego.edu

Course Webpage: http://www.cs.oswego.edu/~alex/teaching/csc435/

Short Description: Introduction to Web Services concepts and standards. Introduction to server-side application programming.

Objectives: Upon the successful completion of the course, the student will be familiar with the Web services paradigm, component-based development, and server-side development.

Textbooks: There is no required textbook. Lecture notes will be available online.

Project / Homeworks: There will be a total of seven homeworks (approximately one every two weeks) that combine to form a larger project. Each homework requires the successful completion of the previous one.

Exams: There are no examinations. There will be a final presentation during the final exam slot of the course.

Grading Policy:
- Homeworks 1--6: 14% each
- Homework 7: 16%

There is no curve. The grading scale is:

93 and up	A
90 to 92.99	A-
87 to 89.99	B+
83 to 86.99	B
80 to 82.99	B-
77 to 79.99	C+
73 to 76.99	C
70 to 72.99	C-
67 to 69.99	D+
63 to 66.99	D
60 to 62.99	D-
Below 60	E

Policies:

- The *prerequisites* for this class are CSC241 and a sound background in programming. If you do not have the prerequisites fulfilled, it is recommended that you drop CS435.

- Course assignments are to be electronically submitted to the Brightspace Learning System.

- Assignments electronically submitted after 11:59pm of the due date will be considered late. It is possible to submit no more than one late homework without a justifiable and documented excuse. Other late submissions will receive a grade of 0.

- Assignments that do not compile will receive no credit.

- It is your responsibility to find out when the CS labs are open.

- *It is also your responsibility to check the course webpage and your email accounts regularly.*

- There will be one per cent deducted from a student's final course grade per cell phone ring/call/text message or other noise from electronic devices in class. Please turn off your cell phones and other distractions.

- If you have a disabling condition that may interfere with your ability to successfully complete this course, please contact the Disability Support Services Office at (315) 312-3358 or DSS@oswego.edu .

- Academic Misconduct Policy: Students must work individually or within their assigned group on all assignments and projects. If assistance is necessary, the instructor can be contacted during office hours, by electronic mail or by making an appointment. Plagiarism, cheating, and the like will result in a failing grade for the course or, at the discretion of the instructor, in disciplinary action through the respective SUNY Oswego office.
