

Her

She is not a beauty queen-barely wears make-up.

She isn't even skinny, probably never was size 2.

She has no style, look at her: her earring looks like a triangle from Geometry class, and her pants are too flared.

She dyed her hair wrong, just handful of chunk is blond, but rest is all fiery ginger and curled.

and um, she is like. I don't know. Stupid.

But she is taller than most, and walks like a model.

She always talks with her hands, her nails are perfect, just like herself, cleanly organized, never chipped

I stared into her long enough to observe her earrings.

That class does not take attendance, but I go always.

That little part of her hair, makes her look like a fairy.

And I had to write this list, just so I don't like her.
