
Task 4 – Display Melodies Method for EasyABC

This task displays the music sample in such a way that it can be easily copied and pasted directly into EasyABC for listening purposes. This sets up the required infrastructure for interactive selection, which is the next task after this one. The format is the following:

```
X:1
T:Individual <individual-#>
C:Dystopian Tuesday → my AI band name :)
M:4/4
L:¼
Q:1/4=120
V:S clef=treble name=S
V:A clef=treble name=A
V:T clef=bass name=T
%%score [ ( S )( A )( T ) ]
K:C
V:S
%%MIDI program 0 → sets instrument, may be useful to set different sounds later
<melody1>
V:A
<melody2>
V:T
<melody3>
```

Demo

```
[1]> ( load "D:\\Programming Projects\\Lisp
Projects\\466Project\\acga.lisp" )
;; Loading file D:\\Programming Projects\\Lisp
Projects\\466Project\\acga.lisp ...
;; Loaded file D:\\Programming Projects\\Lisp
Projects\\466Project\\acga.lisp
T
[2]> ( demo--display-individual )
```

-----Individual 1-----

X:1
